SOME MUNICIPAL SHORTCOMINGS.

It is a mystery to the taxpayers of the city what becomes of the \$150,000 that is collected from them every year.

They have the privilege of building their own streets and sidewalks and then are considerably allowed to walk on them, but then where does the \$150,000 go is the question they would like to have answered. It is spent, to be sure, but is it spent judiciously?

The statement of the council committee this spring proved nothing; it was so unintelligible that even the organs of the administration attacked it. But it was never intended to convey any information.

There is not a department of the present city administration, which is conceded to be the poorest the city has ever had, that does not need adjusting.

The fact that the street lights are not burning half the time, and that they cost the city more than good service should, is known to all citizens. The public school board with its party politics has hurt the schools and has destroyed the standing of the board as an educational factor in the community. The petty contentions and factional feeling that exists are conceded even by the members to be a disgrace, and until the school board is freed entirely from partisan politics the greatest bulwark of our future prosperity will be endangered.

When one stops to think of the enormous amount of money that is collected from the people each year and has been collected for years past, and then figures the permanent benefits that are derived from this great outlay, he will realize that he pays more money for the returns he gets, than any other city in the country.

Note the sanitary conditions; note the lack of public charities; note the lack of public parks; note the unhealthy condition that has existed this last year; note the mud in wet weather and dust in dry weather and you will wonder for what this enormous amount of taxes is used and where it goes. You will wonder what the use of having a city government whose principle is higher valuation, larger tax rate and more deadweight politicians living off the community.

The trouble is, too little regard for health and pleasure and education, too little regard for the unfortunate sick and disabled, and too much attention to machine politics.

The fact is that the men who have been running the city for the past six years know little of what other communities are doing; they do not endeavor to keep up with the progress of the world as their entire time is taken up in petty machine politics and scramble to attend to other people's business, neglecting their own. This condition will never be improved until the salaries are made sufficiently large to induce men of ability to accept the office, and this can be done without additional expense to the taxpayer by cutting off the superfluous office holders who are now holding sinecure jobs.

Cheap salaries begot cheap men, and the past has demonstrated that cheap men are the most expensive in the long run.

REPUBLICAN PROSPECTS.
In answer to many inquiries The Sun would most assuredly recommend that a full Republican ticket be placed in the field for both city and county offices this year. Paducah has been carried five times out of seven since 1895 by the Republicans and with good men on the ticket, and a united effort, the city can be carried again.

The county has been showing more Republican votes every year, and with the dissatisfaction that exists in the late primary, the prospects are very bright that McCracken will soon be wrenched from the Leg. Now gang that has controlled the county.

It will remain a mystery for all except that it is the Evening News, time just why the Evening News should make such a "crow" over the Democratic victory in St. Louis, when it was the election of a Gold Democrat, and the defeat of a full-fledged Bryan-and-free-silver-Democrat. Can it be the editor is going to renounce his little demi-god, William Jennings Bryan, and be a gold-bug?

The election of Wells in St. Louis means death to Bryanism and free-silverism in that state. It is claimed, and next to the election of Mr. Parker that is the best news we could have.

The resolutions adopted by the board of health was well gotten up and to the point. No one knows better than these conscientious men the wretched condition of our city. The recommendations suggested are wise and should be adopted. Dr. Graves is proving himself a good officer and if he is permitted to have his way some improvement is sure to be made. Keep up the good work, members of the board, and improve the sanitary condition of this community. The people are with you and applaud your unselfish interest in this matter.

all sides as regards the Democratic primary. Men who are not office seekers, men of all stations in life, men who have always been Democrats, say they will not be forced to support such nominees. They claim that the fact over 300 more votes were polled than voted for Bryan in that hot campaign is sufficient evidence of the chicanery that was practiced. Men who are not residents of the state, boys under 21 years of age, and lifelong Republicans were permitted to vote without question. But they are not the worst feature. Repeaters were utilized very liberally. It is claimed men voted at two and in some cases three different precincts. The fact that in most cases the weakest men on the ticket received the nomination is conclusive proof of the fact that the best element of the Democratic party was run over by the hoodlum element, men who had spent their time and money last fall were put aside for men who had not turned a hand or contributed a cent. These men would not have been complained had they been honestly defeated, but to be slaughtered by the Legal Row and city hall gang is more than they will stand.

It will remain a mystery for all except that it is the Evening News, time just why the Evening News should make such a "crow" over the Democratic victory in St. Louis, when it was the election of a Gold Democrat, and the defeat of a full-fledged Bryan-and-free-silver-Democrat. Judge Evans' decision in the federal court here that Confederate money is not counterfeit money has attracted more than usual notice throughout the state, because it is seldom a man is found who is so ignorant as to accept a \$50 Confederate bill and give back good money in exchange. The general opinion is that Judge Evans' views are correct, and a man who can't tell Confederate money from good money ought to retire from business and have a guardian appointed.

Fortunately there has been little rain this winter, and the streets have been passable; but in the last week there has been almost continuous rain, and the streets of Paducah are worse than country roads. What has become of the eighteen thousand dollars spent on the streets the past year?

Mr. Geo. W. Parker, the defeated candidate for mayor of St. Louis, is well known in Paducah. He was formerly president of the St. Louis and Paducah railroad, and the transfer boat that for several years plied between Paducah and Brooklyn, Ill., was named for him.

The school board passed a resolution asking the mayor to have the gutters in the neighborhood of the school houses cleaned. Would it not be well for the citizens on every block to meet and pass similar resolutions?

In Chicago the men who were against the street railway companies won, and in St. Louis the man who was for them won.

Those Democrats who are for Bryan and free silver are not having much to say about the "victory" in St. Louis.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

FINE DISCOURSE.

REV. H. G. ENELOW HEARD BY A LARGE CROWD LAST NIGHT.

The Week's Holiday of the Passover Began All Over the World Last Night.

Rev. H. G. Enelow, rabbi at Temple Israel, last night addressed one of the largest crowds that ever assembled there. The occasion was the Passover services.

His discourse, which was on the Passover, was one of the most able and eloquent ever listened to in Paducah. All who heard it were charmed with it, and many were the compliments passed on the talented young divine, who is so soon to leave Paducah for a wider field. Rev. Enelow has attracted to his church many people of other denominations, who are entertained and instructed by hearing his weekly sermons.

Last night's congregation was splendid evidence of his popularity in Paducah.

The Feast of the Passover, which began last night, continues one week, but the stores, as on other days, do not close.

The Feast of the Passover commemorates the deliverance out of Egypt and out of the house of bondage. Strictly speaking, it is in memory of the passing of the angel of death over the homes of the Israelites.

In orthodox homes there were observed what is known as Seder. It is a joyous occasion for the Jew, and whenever possible, means a reunion of the family. On the table are shown symbols of the oppression in Egypt; the salt water signifying tears shed by the women of Israel; the bitter herb a token of the suffering and sorrow; a sweet apple a sign of the love of the Jew for his brother; a burned egg a reminder of the sacrifices of the Israelites.

During the week of Passover the pious Jew eats no leavened bread. Instead there is used the Matzo, which was formerly confined to Jewish homes exclusively, is now eaten in many Gentile households, and may be bought at any bakery.

ENGINEER BORNSCHIEIN.

BANDAGES REMOVED FROM WOUNDS—ENGINEER SHEP. PARD BETTER.

Engineer J. J. Bornschiein is much improved today. All the bandages were removed from his injuries this morning and he hopes to be himself again soon. Mr. Bornschiein had been steadily improving until he was taken with chills last week, but he has succeeded in breaking them up. In conversation with the writer this morning he stated that he was feeling better today than he has felt since the accident.

Engineer Walter Sheppard, who was hurt in a year-ago collision near East Cairo several days ago, is nearly able to resume work.

Engineer Joe Randall and Fireman Wilford Rogers, who were hurt in a rear-end collision near Obion, are also improving rapidly, and Fireman Rogers, who had both arms broken, is able to be out.

An ounce of prevention is worth a pound of cure, and a bottle of BALLARD'S HOREHOUND SYRUP used in time is worth a staff of physicians with a drug store or two included. Price, 25 and 50 cents. DuBois, Kolb & Co.

LOST WITNESS FOUND.

For several days the police had been in search of Jeff Force, a witness badly wanted in the New Davis mule stealing case, set for tomorrow in the police court. The case had to be continued a time or two on Force's account. The police could find no trace of him until this morning, when Officer Chas. Hart found him on Second street. The police had seen him every day, but didn't know his name. He laughed when summoned and said he knew they were looking for him all the time.

IT IS IMPORTANT

TO KNOW WHAT YOU ARE TAKING WHEN USING CATARRH MEDICINES.

Catarrh is the short route to consumption, and the importance of early and judicious treatment of catarrh, whether located in the head, throat or bronchial tubes, cannot be too strongly emphasized.

The list of catarrh cures is as long as the moral law and the forms in which they are administered, numerous and confusing, from sprays, inhalers, washes, ointments, and salves to powders, liquids and tablets.

The tablet form is undoubtedly the most convenient and most effective, but with nearly all advertised catarrh remedies it is almost entirely a matter of guess work as to what you are taking into your system, as the proprietors while making all sorts of claims as to what their medicines will do, always keep it a close secret as to what they are.

The success and popularity of the new catarrh cure, Stuart's Catarrh Tablets, is largely because it not only cures catarrh but because catarrh sufferers who used these tablets know what they are taking into their systems. Stuart's Catarrh Tablets being composed of Eucalyptol, Hydrastin, Guaiacol and similar valuable and antiseptic ingredients, and are pleasant to the taste and being dissolved in the mouth they take immediate effect upon the mucous lining of the throat, nasal passages and whole respiratory tract.

The cures that Stuart's Catarrh Tablets have accomplished in old chronic cases of catarrh are little short of remarkable, and the advantage of knowing what you are putting into your stomach is of paramount importance when it is remembered that the cocaine or morphine habit has been frequently contracted as the result of using secret catarrh remedies.

Stuart's Catarrh Tablets meet with cordial approval from physicians, because their antiseptic character render them perfectly safe for the general public to use and their composition makes them a common sense cure for all forms of catarrhal troubles.

All druggists sell them at 50 cents for full sized packages.

MEDICAL SOCIETY.

OFFICERS ELECTED AND MEMBERS ENTERTAINED BY DR. ROBERTSON.

The Paducah Medical and Surgical society met last night with Dr. J. P. Robertson and the following officers were elected:

Dr. C. H. Brothers, president; Dr. Delia Caldwell, secretary, and Dr. H. T. Rivers, treasurer.

Dr. Robertson, the retiring president, entertained the society with an elegant banquet at Detzel's Buffet after the meeting.
